

SCF Consult South West Guide

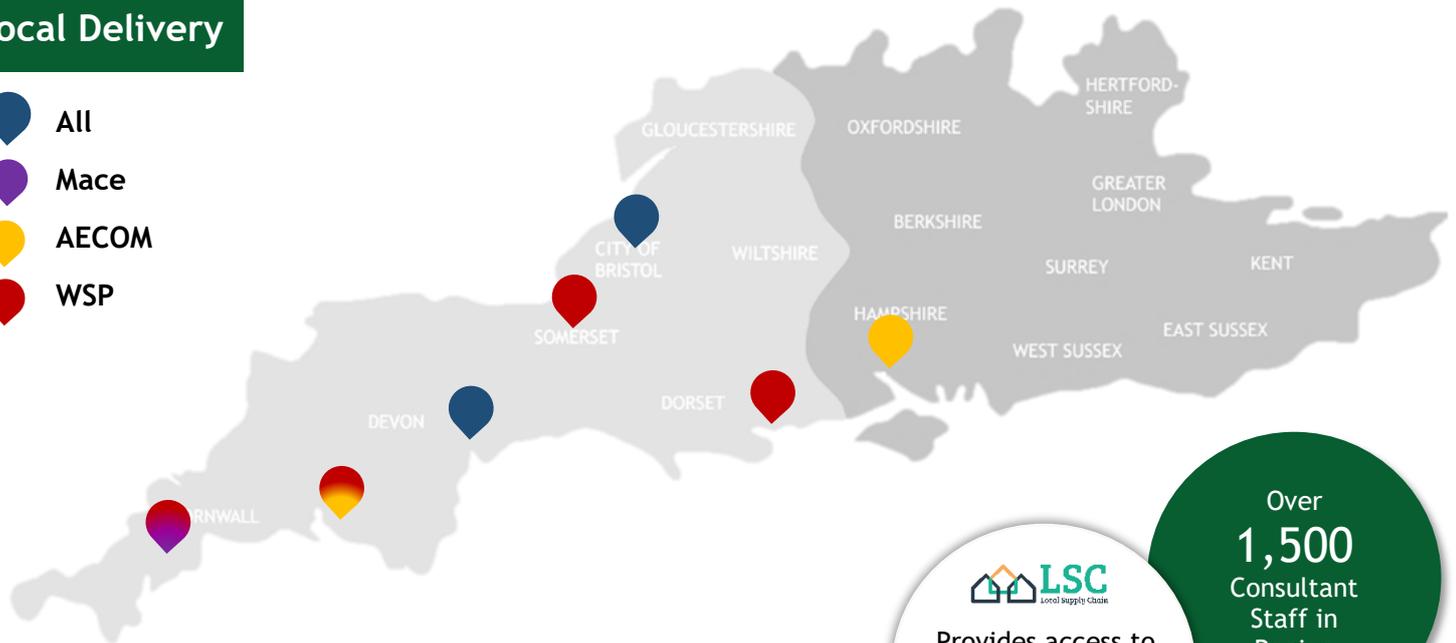

Offering you quick access to industry leading Consultants for all your Built Environment needs

About SCF

By the public sector for the public sector, SCF offers an efficient and modern construction procurement process for the benefit of all public authorities in the South of England. Having delivered over £6bn of public sector construction and with over 12 years' experience, we are leaders in achieving value from two stage open book.

Local Delivery

- All
- Mace
- AECOM
- WSP

Provides access to over 1,000 SME Consultants operating in the South West

Over 1,500 Consultant Staff in Region

AECOM is the world's premier infrastructure consulting firm, delivering professional services throughout the project lifecycle - from planning, design and engineering to program and construction management. We partner with our clients in the public and private sectors to solve their most complex challenges and build legacies for generations to come.

Mace is an international consultancy and construction company, founded and built on exceptional people, a commitment to service excellence and a deep-rooted entrepreneurial spirit. We employ over 6,300 people across five global hubs, with a turnover of £2.35bn. We develop, consult, construct and operate some of the world's most inspiring projects and programmes.

As one of the world's leading engineering professional services consultancies, WSP brings clarity and vision to complex challenges. Equipped with local knowledge, world-class talent, and proactive leadership, we plan, design, manage and engineer long lasting and impactful solutions for our clients and the communities we serve, meeting both the needs of today and addressing the challenges of the future.

Our Net Carbon Zero Guarantee

Leading the change towards a more sustainable and equitable future by partnering with clients providing solutions that help achieve environmental and social value ambitions.

“Sustainability will be at the heart of our future offices. As issues such as climate change continue to make headlines, designing and developing offices that encourage longevity and foster environmentally responsible initiatives is essential.”

Achieved net zero carbon in 2020. Ongoing commitment to adapt circular economy and further reduce embodied carbon.

“Our goal is to be a leader in sustainable environmental practices and to continually improve the environmental credentials of our operations, projects, and client services.”

WSP adopts a net zero commitment supported by science-based GHG emissions reduction targets.

“There is no greater agenda than mitigating climate change. Whether by cutting carbon, protecting nature, or advocating for a fair transition, achieving a net zero future will allow us to build back better. Every day, I see this ambition driving our experts.”

Assured Governance

Fully managed and guidance provided by experienced south west team with collectively over 60 years’ experience in the construction industry.

- Fully OJEU/Find A Tender (FTS) compliant supporting the [Government Construction Playbook](#)
- Stringent working guidelines and practices - strong governance, clear definitions & guidance
- For the public sector by the public sector, safe with our construct legacy & experience
- Two stage is simple, valid, quick

By the public sector, for the public sector.
